Aerial photo of 1995 produced by B.D.C.

Enforcement action was taken against "all of the sites" but those have gradually been re-occupied - re-colonised
"Brown site" same lawful ~~&~~ existing use.
Successful enforcement action was taken against
the scrapyard in the 1990s

existing legal G site.

I am critical of B.D.C. current policy, which is out of date.
Basildon needs to provide for another 50 plots, as a share of
long distance Travellers. It has been recommended that "transit
sites" be set up in the area of existing sites.

Sarie Clarke case sited by BDC rep. - DK says they
(Clarke) have now put in for two year planning permission.

Joanne Sheridan, son James in school since 2001,
